

DATA SUMMARY

McMILLAN TACTICAL

TAC-50

EQUIPMENT INTRODUCTION

PURPOSE

The McMillan Tac-50 Tactical Sniper Rifle System with Accessories provides especially trained personnel with the capability to effectively perform the tasks of a sniper, for combat and internal security operations. The rifle system can also be used in both advanced regional and national sniper competitions.

DESCRIPTION

The McMillan Tac-50 Tactical Sniper Rifle System is a heavy barrel, manually operated, bolt action, detachable box magazine fed system with 5 shot capacity. It is fitted with a detachable “Tac-50” McMillan Fiberglass Stock and butt spacer system with pistol grip, specifically designed for use with a bipod.

The system utilizes a Remington type trigger set to 3.5 lbs, with an optional Jewell trigger assembly upon request. The McMillan barrel is a match grade fluted stainless steel barrel. All metal parts are finished with a matte black corrosion resistant polymer finish.

The McMillan Tac-50 Tactical Sniper System with a Nightforce “NXS” 8 – 32 x 56mm Mil Dot Telescope or the Leupold 16X Mil Dot Telescope is capable of 1/2 MOA in the hands of qualified snipers with applicable match ammunition.
